1113		Precision Craft Glue (60g/1.91fl oz) with Pin Cap, Ref. 1113	144	12

Precision Craft Glue (60g/1.91fl oz) with Pin Cap, Ref. 1113

The Supertite Precision Craft Glue (60g/1.91fl oz) kit is the go to glue solution for paper and card stock craft making projects, with the added benefit of being solvent free and non-toxic. Supertite's Precision Craft Glue is engineered with reduced water content to avoid paper wrinkling and increased resin content to provide a strong yet flexible bond for all your paper crafting needs. Supertite Precision Craft Glue bonds fabric, paper, cardstock, plastic, wood and more! This product is great for Mixed Media card stock crafts, paper quilling, and multiple stationary uses. The Precision Pin-Cap allows users to apply a fine amount of craft glue down onto the surface and when complete the pin-cap prevents any clogging in the precision gauge applicator. The Pin-Cap is 0.5" inches long. Additionally, if you want to make larger applications of glue, then simply unscrew the bottom tip holder with 2 more choices of glue application sizes, essentially 3 different nozzle sizes in 1!

REF.	CODE	DESCRIPTION	UNITS/BOX	INNER BOX
1000	 8 414646 311628	INSTANT SUPER GLUE 3g / 0.105oz	288	24

INSTANT SUPER GLUE 3g / 0.105oz

2g + 1g Free! Not only do you get 1g extra of super glue compared to most other brands, but the product meets E.U. required chemical toxicity requirements. Excellent Strength and Speed for a mighty good price! Bonds almost all surfaces in seconds (Ceramics, Metals, Plastic, Rubber, Wood, etc). * Precision Nozzle for accurate glue applications and a fast bonding super glue. * Not suitable for polystyrene foam, foam rubber, polyethylene and polypropylene. Do not use to attach or to reattach rear-view mirror. Bonded items should not be heated in an oven, microwave or dishwasher. Do not use to bond artificial acrylic nails.

REF.	CODE	DESCRIPTION	UNITS/BOX	INNER BOX
1063		10x Extended Precision Tips	288	12

10x Extended Precision Tips

10x Extended Precision Tips- allows users to apply the smallest amount of adhesive without any glue mess. Use on all types of tubes and bottles of Supertite Adhesives. Simply cut at a 45 degree angle at the very end tip to get the opening desired for dropping glue onto the surfaces to be bonded. Do not push down forcefully onto glue container nozzle, as the tip could split and cause glue leakage. If using Super Glue, users may be able to reuse extension tips by soaking in finger nail polish remover for 10 minutes, then rinsing with water and allowing to dry.
